

DAVID KAI

WEB DEVELOPER & MEDICAL WRITER

PROFILE

I'm David Kai a passionate web developer and a dedicated medical laboratory student.

With expertise in HTML, CSS and Javascript, I create visually appealing and responsive websites that offer seamless user experience. I aim to bridge the gap between healthcare and technology, contributing to innovations that enhance lives and streamline medical processes.

EXPERIENCE

Medical Writer

2022-Present

Upwork

Am writing medical and health articles for my clients. These articles includes the signs and symptoms of diseases and their treatments.

- Health articles,
- Signs and symptoms of diseases and their treatments.
- Best medical approaches in diagnosing diseases.

Database Developer

2022-2023

Farmington Agrovot

Together with my colleague, I developed a Database sytem using Microsoft Access to monitor the stock of an Agrovot. The Database developed could:

- Monitor the Agrovot stock.
- Generate the profit made within a day/month/year.
- Determine which products sale the most.

System Developer

2019-2022

Baringo High School

Developed "Nekta Management System" Using Ms Access. The project entailed the following:

- Allow users to regester new customers in their database.
- Enable customers to attend online classes to learn Bee farming.
- Enable customers to order and buy honey.
